# xpressions **SNAP!**™ Setup Guide

## • File Setup •

FOR GENERAL FILE SETUP CONSULT THE FULL FILE PREP GUIDELINE AT:

<http://xpressions-snap.com/guidelines.htm>

For all XSnap skins we require **1.5" of bleed OVERALL (.75" on all sides)**. If bleed is not provided to us we will do our best to add/clone your artwork when applicable. If not, we will need to bleed out your image to ensure we have enough for print/finishing. See example below:

Artwork provided  
w/out bleed

Image bled out  
for print size

Finished Size

## • X-Factor •

Due to the nature of the Xpressions® graphics, we recommend keeping all artwork elements you do not want distorted (ie text, logos, or faces) 3-5" in on all sides. Examples below:

5" in - least amount  
of distortion

3" in - distortion  
becomes more apparent

1" in - distortion  
very noticeable

\*PLEASE NOTE IF DISTORTION IS INTENDED AS PART OF DESIGN\*
